

Science Made Fun!

“The enthusiasm really shines!” - Astronomybuff.com

**Hands on, interactive
60 minute shows to
enthuse and inspire
young people about
science.**

1.) Funky Forces

Exploring gravity and magnetism through fun demos and exciting activities. Show includes making your own compass.

2.) Amazing Anatomy

Split into three sections, the show examines The Eye, The Ear and Human Blood. Finishes with a fantastic blood related game!

3.) Make Your Own Podcast

As Science Made Fun started as a podcast we help children work in teams to produce their own science related podcast using fact sheets. Best podcast as judged by presenters is recorded and published to our website below.

NB Shows for a max
of 30 KS2 children
